

**Auto Select** is a selection and recruitment tool for applicants seeking a career in the Automotive Industry. It not only identifies strengths and weaknesses in Literacy and Numeracy but **also** examines vocational aptitude towards this career.

## Can your applicant?

- Understand basic mechanical principles of motion, direction and applied forces in a motor vehicle context
- Visualise two and three dimensional shapes
- Understand electrical principles

**Confirm you are putting your applicant on the RIGHT course**  
**Reduce early leavers**

**Already** assess for Literacy and Numeracy? – then we can supply you with just the vocational part of the assessment.

## Our System provides you with –

- Marked results immediately available
- Question by question breakdown
- Scores graded with career recommendations
- Individual results can be printed or saved
- A report which can be printed/saved or sent directly to an employer
- Easy to provide consistent feedback
- Easy to retrieve audit trail
- Secure password entry
- Conduct assessments anywhere with internet access
- Unlimited use – assess **unlimited** applicants for no extra cost

**The software does all the work for you!!**

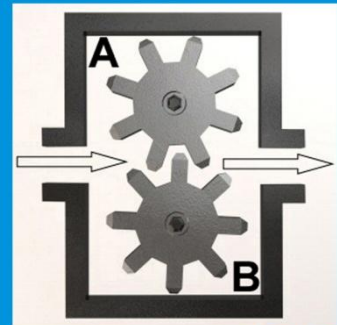

**To assess Auto Select – FREE**

**Online demonstration available which will enable you to evaluate the complete system**
